

Slovenian Chapter IEEE Education Society

Maribor, 30th June, 2008

**UM FERİ – University of Maribor, Faculty of Electrical Engineering and
Computer Science, Maribor, Slovenia
and
IEEE Education Society Chapter in Slovenia**

INVITATION

International IEEE Education Society Technical Meeting

to be held on
**4th July 2008, at 13:00, in HIPULAB, G-217,
UM FERİ**

The objective of the International Meeting is to bring together the IEEE Members, scientists, and students specialised in education within Electrical Engineering, Computer Engineering, and allied disciplines.

The meeting will tackle the discussion about the advancement of theory and practice of distance learning, and show the current situation in the development of M. Sc. Curriculum in E-Learning at the University of Kragujevac, Technical Faculty, Serbia.

The meeting is going to be opened by the invited lecturer:

Dr. Danijela Milošević
University of Kragujevac, Technical Faculty, Serbia
Didactical view of M.Sc. Curriculum in E-Learning for Technical Sciences

Dr. Milošević will present the current results of the TEMPUS “M.Sc. Curriculum in E-Learning” project which will enable high-quality and specialised education in the field of e-learning in Serbia. Furthermore, it will establish the new M. Sc. studies in e-learning according to the principles of the Bologna declaration. Besides this, the objective of the project is to develop the new teaching methodology for postgraduate studies in technical sciences.

Let me assure you that we will be most pleased to greet as many of you as possible.
With my best personal regards,

Matjaž Debevc
Chair of the Slovenian Chapter IEEE Education Society
